WILL BE FOLLOWED BY DISCUSSION.

PRESENTED BY THE ALZHEIMER'S ASSOCIATION - GREAT PLAINS CHAPTER
AND THE LARAMIE COUNTY LIBRARY

Alzheimer's is the second most-feared illness in America, following cancer, and may affect as many as five million Americans. While there is no cure for the disease, THE ALZHEIMER'S PROJECT shows there is now genuine reason to be optimistic about the future. Created by the award-winning team behind HBO's acclaimed "Addiction" project, this multi-platform series takes a close look at groundbreaking discoveries made by the country's leading scientists, as well as the effects of this debilitating and fatal disease both on those with Alzheimer's and on their families.
