Overview of 100MLives & SCALE

100 Million Healthier Lives

www.100mlives.org

Identity: An unprecedented collaboration of change agents pursuing an unprecedented result:

100 million people living healthier lives by 2020

Vision: to fundamentally transform the way we think and act to improve health, wellbeing, and equity.

Equity is the “price of admission.”

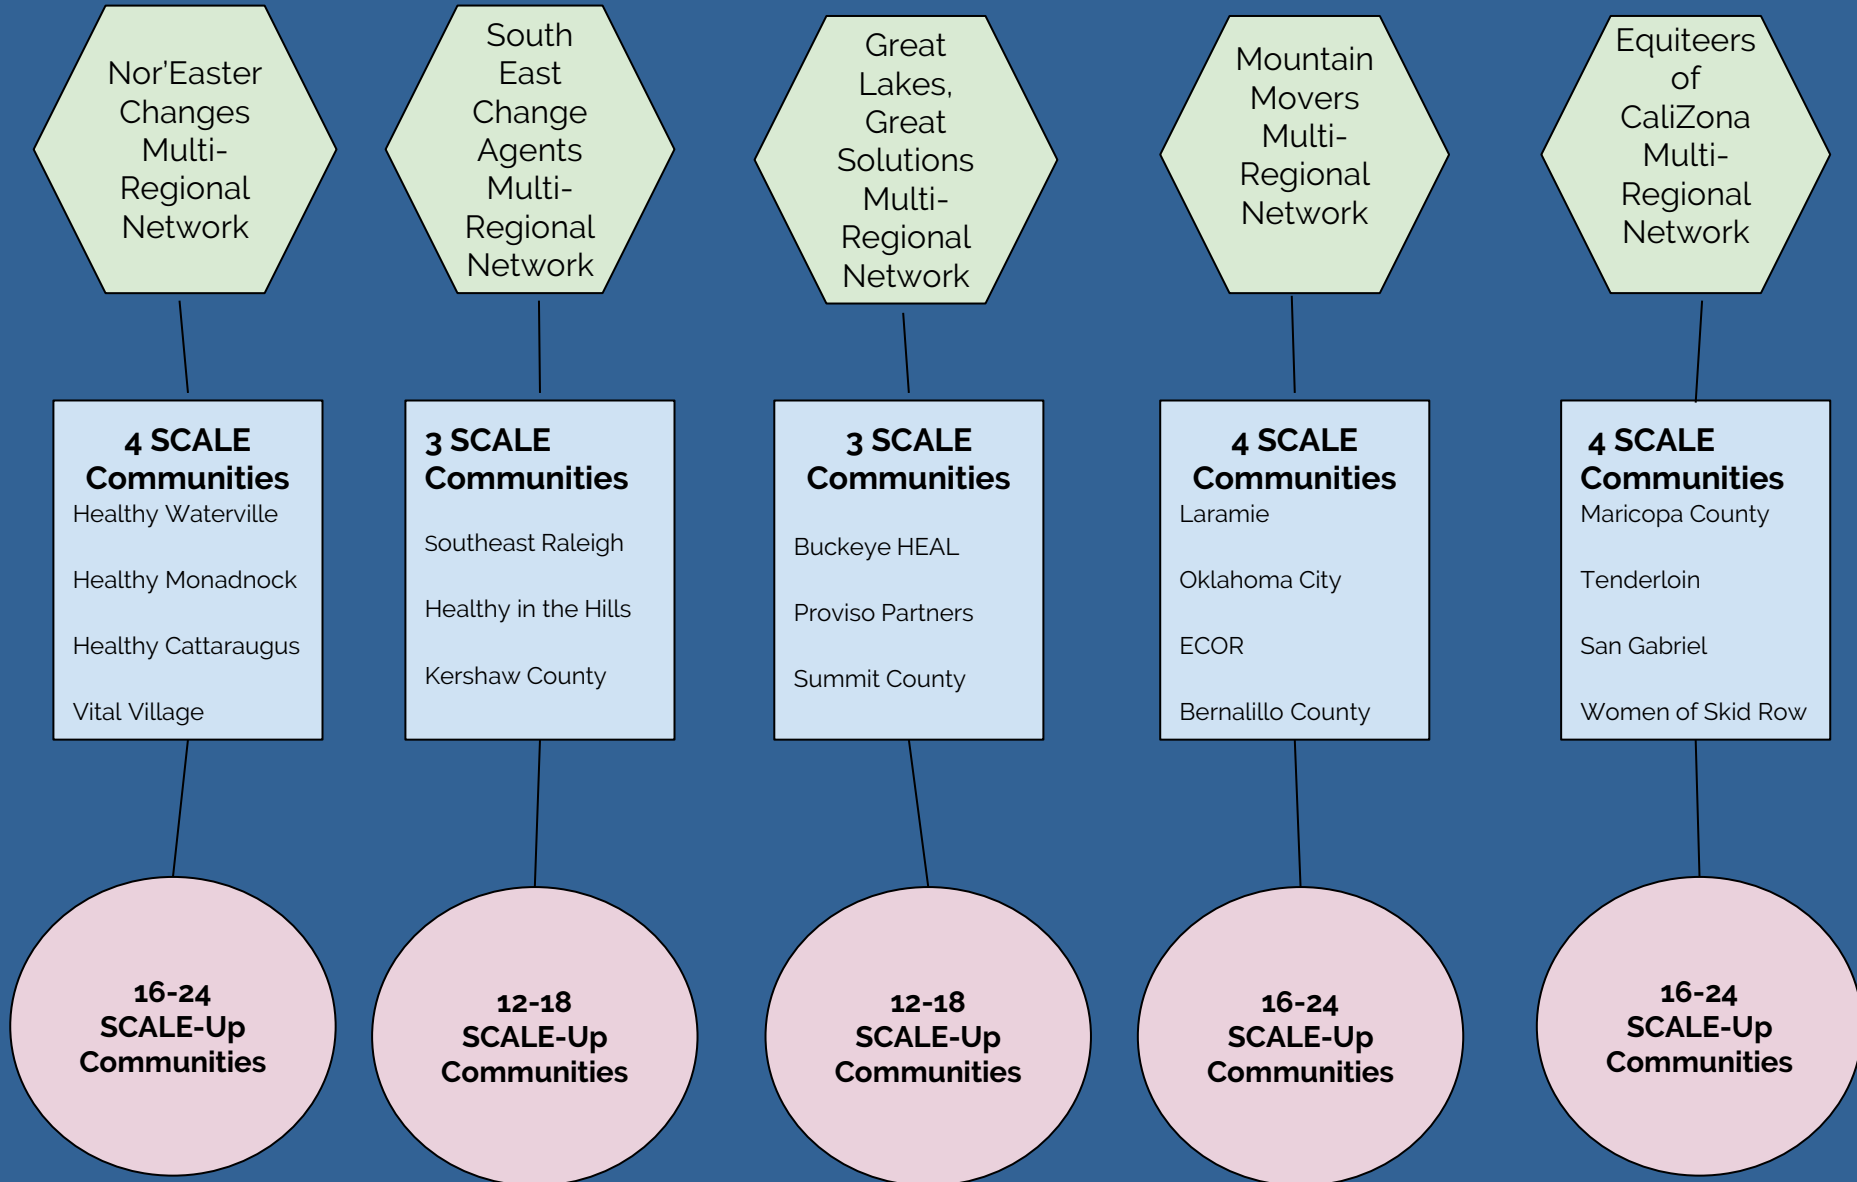

Convened by the Institute for Healthcare Improvement as a partnership

18 SCALE Communities working to:

- Make meaningful and measurable improvement on health and health equity topics important to them (Community Improvement)
- Transform how their community addresses health, wellbeing and equity (Community Transformation)
- Spread this work to other communities, coalitions and organizations (Scale-Up)

Regions of Solutions

Share a
Framework for
Advancing
Community Goals

The Community of Solutions Framework

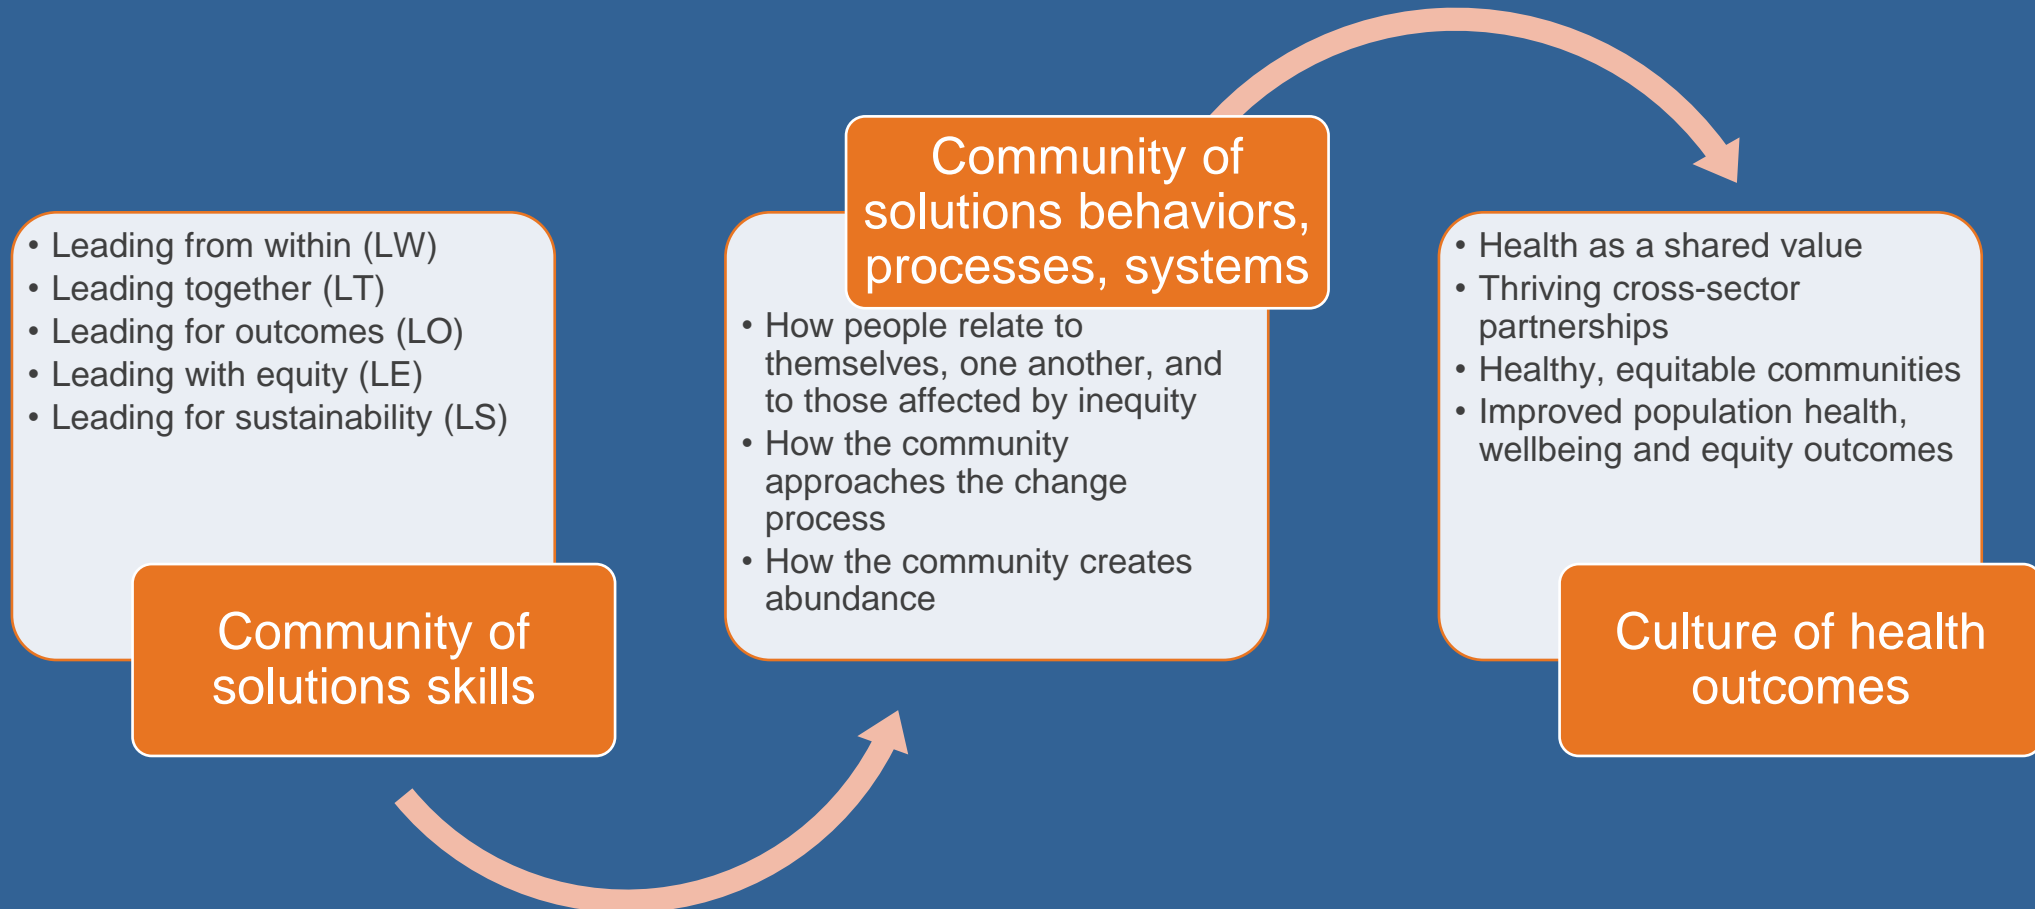

Community of Solution Skills

- Leading from Within
- Leading Together
- Leading for Outcomes
- Leading for Equity
- Leading for Sustainability

Offer a Tool for
Consideration
Asset Mapping

Using an Abundance Mindset to Address Youth Homelessness

What is Asset Mapping?

Asset (n)

- a useful or valuable quality, person, or thing

Mapping (v)

1. to explore or make survey of
2. to plan or delineate in detail
2. to locate

Community Asset Mapping

- **WHY:** Inspires people to value and discover the existing resources within their community
- **HOW:** Inventory/Map the gifts, talents, and resources within your community
- **SO WHAT:** Illuminate untapped strengths and assets prior to the discussion

What You Might Create:

- **Community Map** that paints a broad picture of the many assets in the community
- **Community Involvement Directory** that showcases the activities of formal and informal groups and ways to get involved in community efforts
- **Neighborhood Business Directory** that lists all of the neighborhood businesses, resources, and contacts
- **Individual Asset Bank** that features the gifts, talents, interests, and resources of individuals

Identify your
Community's
Strengths and
Assets

Your Turn!

Small Group Discussions

- With others from your community, inventory community strengths and assets :
 - Identify a community concern you have regarding student homelessness
 - Jot down your geographic area
 - Record (3) three community assets for each category:
 - Individuals
 - Citizens Associations
 - Institutions
 - Other Community Resources
- Select a recorder and reporter for your group

Please share your top 3 assets

- Why are these assets important?
- Were there any surprises?
- What do the surprises mean?

Thank you!
